Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 September 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

Claim 21 is objected to because of the following informalities: "or" in line 9 of the claim should be --of--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-17 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Sasaki et al. (EP 0 486 298 A1).

Sasaki et al. disclose a connector comprising:

an insulator 3; and

plural signal (+ and -) and ground contacts 5,6 held by said insulator;

said contacts being arranged at said first end in two rows in a staggered fashion, two of the signal contacts and one ground contact forming three apexes of an isosceles triangle and at said second end in three rows in a staggered fashion, two signal and one ground contact forming three apexes of an isosceles triangle.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sasaki et al.

Sasaki et al. disclose the invention substantially as claimed, but do not explicitly disclose a printed circuit board to mate with the contacts. It would have been obvious to one having ordinary skill in the art at the time the invention was made to include a PCB, since it is well known in the art that these types of connectors are used with PCBs.

Response to Arguments

Applicant's arguments filed 9/25/03 have been fully considered but they are not persuasive. Applicant's arguments regarding the differences in the numbers of rows in the connectors is noted, and new claim 21 overcomes the 102 rejection over Bassler et al., since Bassler et al. only teach one row on its second end. However, since Applicant uses "comprising" in the claims, the number of rows is not limited to those recited in the claims, and thus Sasaki et al., showing at least eight rows, anticipates the claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
